"Talk Up Your Trade—Telephone"

"When trade slackens up and orders begin to come in less frequently, I always get busy at my *telephone,*" said one of our subscribers recently.

"It's the best way I know to keep the business geared up to normal and to avoid those dull streaks that make such a difference in the year's profits.

"I find that by using the *telephone* to round up old customers, to go after new trade and to economize my own time and energy, *I can keep my business pretty well-balanced all the time.*"

If your business is not quite up to normal, why not get busy at your Telephone and talk up your trade?
